The world's
largest
airline cargo alliance

SkyTeam Cargo

takes special care of your freight worldwide

The first global airline cargo alliance

Cargo, like passengers, deserves a great amount of care. That's why SkyTeam has extended its customer-focused services to create SkyTeam Cargo, the first real airline cargo alliance, in September 2000. The SkyTeam Cargo airlines - Aeromexico Cargo, Air France Cargo, Alitalia Cargo, CSA Cargo, Delta Air Logistics and Korean Air Cargo - are working together to be the most effective, customer-driven cargo group in the world by:

- providing one-stop service to customers incorporating a global offer;
- marketing and selling customer-oriented products;
- supporting customers with global logistics services;
- combining the competencies and resources of the member carriers.

SkyTeam Cargo

takes special care of your freight worldwide

The world's largest

airline cargo alliance

Cargo customers have access to a combined fleet of 1,226 aircraft making 8,217 daily flights to 512 different destinations in 114 countries.

SkyTeam Cargo maximizes its global route network with support from 6 major cargo hubs around the world. Customers also benefit from a single point of contact for any shipping inquiry. Skilled professionals within SkyTeam Cargo will coordinate inter-airline Logistics to most effectively move each shipment and provide the best possible service to their customers around the globe.

SkyTeam Cargo's fully
branded range of
products comprises
four families:

Equation
Variation
Cohesion
Dimension

Equation *Fast and easy*

For almost a year now, SkyTeam Cargo has been offering Equation to its customers, an express product which meets emergency shipment expectations, with no limit on total weight. Equation is a highly efficient customized service for urgent shipments. SkyTeam Cargo's commitment to promptly load shipments aboard the first available flight makes reservation unnecessary. An example of customers benefiting from minimized

processing time. There is no weight limit per shipment but a 70-kilogram maximum weight limit per package. Please consult our sales representatives for details and conditions. The internet site www.skyteamcargo.com gives users the opportunity to track the progress of their shipments and enables them to prepare their next shipments, without ever moving away from their desktop.

- > No reservation required
- > Shipments are accepted up to 90 minutes before departure and can be collected within 90 minutes after landing
- > Immediate boarding on the first available flight
- > Shipment tracking through:
www.skyteamcargo.com
- > 70-kilogram maximum per piece
- > Pieces larger than 70 kilogram can be accepted with advance arrangements
- > For shipment over 300 kg, please consult our sales representative

Variation[®] Expertise and specialisation

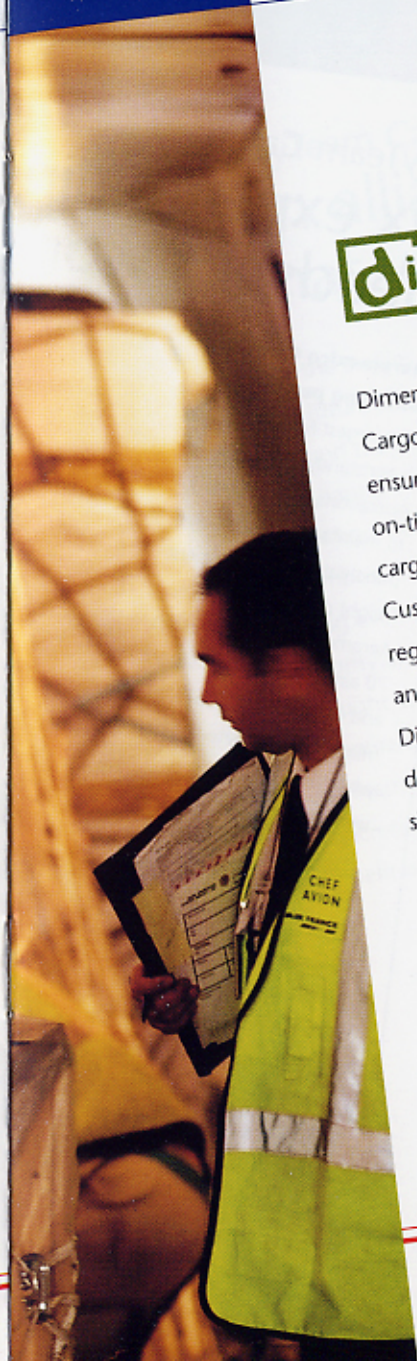

Variation is a highly specialized service that adapts to the shipping demands of goods requiring special care such as valuables, live animals, perishable goods, or any shipment requiring special handling. Customers benefit from years of experience and know-how, as well as dedicated services and equipments.

Cohesion[®] Synergy and just-in-time

Cohesion is a selective and fully customized solution formalized by a tripartite agreement between SkyTeam Cargo members, the shippers and freight forwarders. Cohesion is aimed at satisfying shippers who work on a just-in-time (JIT) basis with steady shipments, such as aeronautics, automotive shipments, pharmaceuticals, electronics...

Dimension[®] Simplicity and reliability

Dimension, SkyTeam Cargo's standard service, ensures basic, reliable, on-time, airport-to-airport cargo transportation. Customers benefit from regular handling times and unlimited capacity. Dimension is particularly designed for consolidation shipments.

More than just
mere components
of a network,
SkyTeam Cargo is
setting up an
effective
combination of
skills and
complementary
resources.

SkyTeam Cargo, six expert airlines needs for world

Aeromexico Cargo: unfailing punctuality
